

GrandStay Hotels Dashboard

Data-driven insights for optimized operations and enhanced guest experiences

PROJECT 1

The Challenge

Centralized Dashboard

Unified view of bookings, revenue, and operations

Actionable Insights

Booking trends, demographics, and efficiency metrics

Better Decisions

Resource planning, marketing, and guest satisfaction

Booking Insights

DAX Measures

Total Revenue

Calculate total revenue – business profitability view

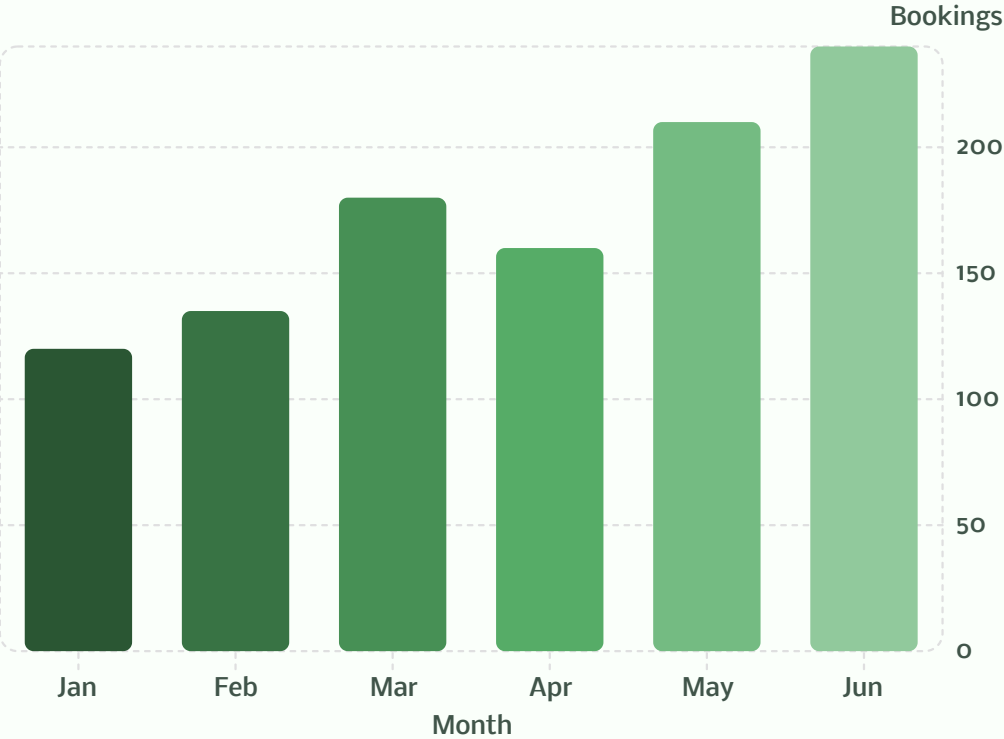

Completed Bookings

Count of "completed" bookings – performance snapshot

Avg. Stay Duration

Average days per completed booking – guest stay patterns

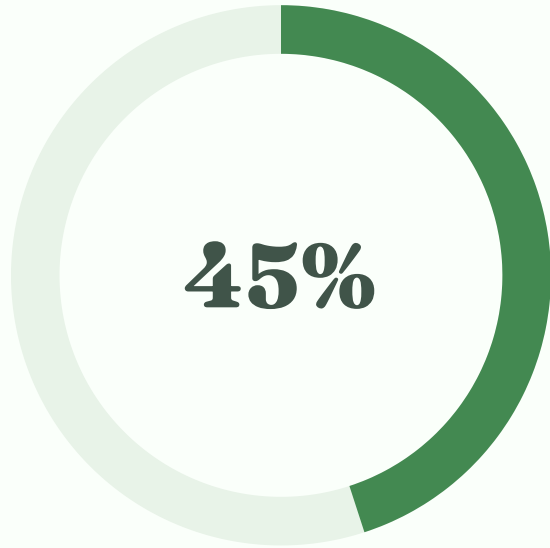

Booking Trends

Monthly Booking Volume

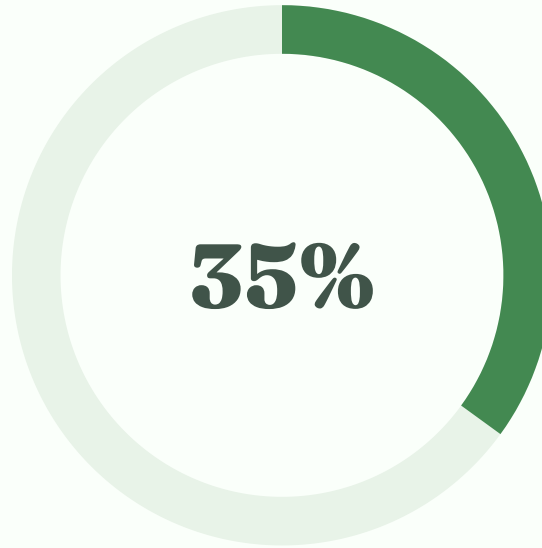

Visualize trends across all booking statuses to identify peak seasons and support resource allocation.

Room Type Popularity

Standard

Largest share of bookings

Deluxe

Strong mid-tier demand

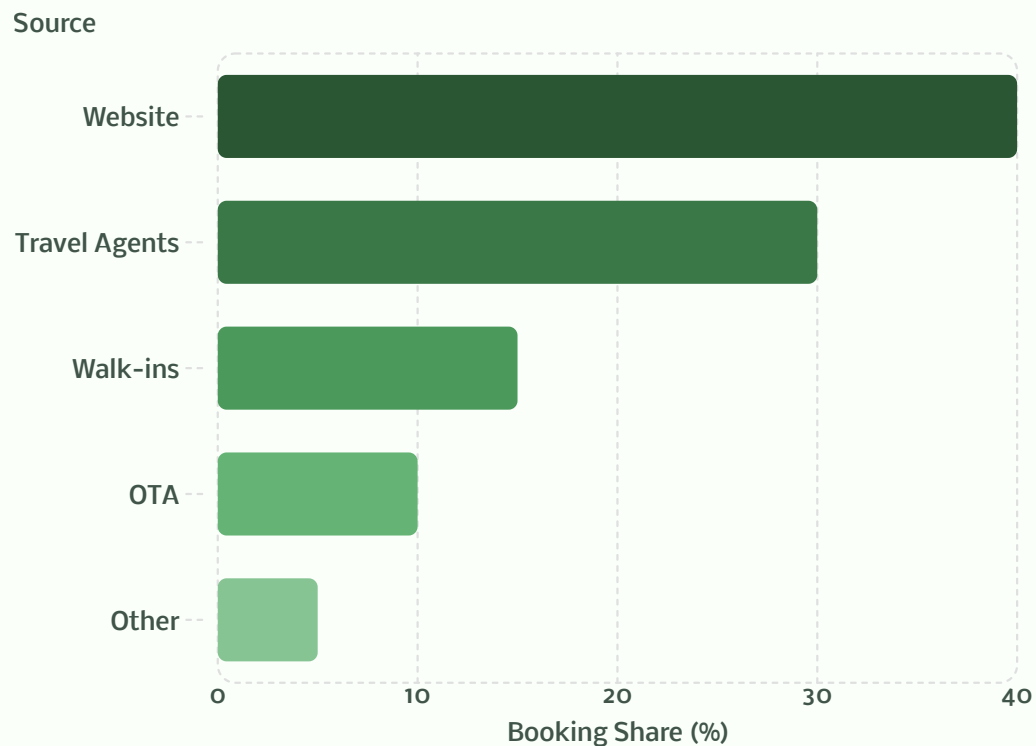

Suite

Premium preference segment

Proportion of bookings by room type – identify preferences and prioritize high-demand offerings.

Booking Source Analysis

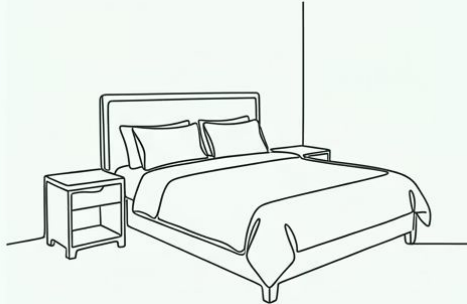

Acquisition Channels

Analyze distribution across booking sources to inform targeted marketing efforts.

- Website – direct bookings
- Travel agents – partnerships
- Walk-ins – on-site demand

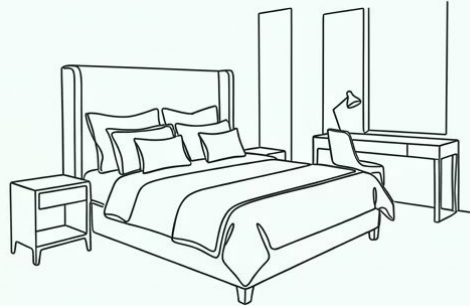

Most Profitable Source by Room Type
